Is your child struggling in school? For a child struggling in school, every day can be discouraging. **You are your child's best advocate.** However, it is not always easy to know how to ask the school for what your child needs.

Join us for a **free workshop** from our Learning is for Everyone project to learn about:

- Special education services
- School resources
- Students with language barriers
- Bullying

We know every child can learn. We are here to help you work with your school to make sure your child gets the support they need. Families at all income levels are welcome.

- Food & refreshments
- Free children's book for parents or guardians who register and attend
- Children welcome
